Bremen, Germany | +49 152 09690928 | jkaradsheh@constructor.university | [LinkedIn](#) | [Portfolio](#)
Motivated and dedicated student with a strong work ethic, keen on applying problem-solving skills to optimize processes and constantly seeking opportunities to expand my knowledge and skills.

EDUCATION

Constructor University, Bremen, DE

B.Sc. Industrial Engineering and Management

June 2025

Amman Baptist School, Amman, JO

O/A-Level GPA 97%

June 2022

WORK EXPERIENCE

Constructor University, Bremen, DE

September 2023–December 2023

Teaching Assistant for Introduction to Logistics & Supply Chain Management (Prof. Stanislav Chankov)

- Provided focused mentorship and feedback on projects and presentations, significantly enhancing student academic performance by more than 10%, particularly in DHL topics.
- Simplified complex topics like material categorization, strategic sourcing, operations research, and procurement in tutorials, to facilitate easier student learning.
- Graded operational research assignments and exams accurately and fairly, providing constructive feedback to students and lightening the professor's grading responsibilities.

Constructor University, Bremen, DE

September 2023–December 2023

Student Assistant for Industrial engineering (Prof. Dr. Yilmaz Uygun)

- Created online materials for an industrial engineering course by condensing lecture content, improving course accessibility and resource use.
- Acquired expertise in digital content adaptation, contributing to the course's effective online delivery and operational efficiency.

Planning Process at Media Plus, Amman, JO

Intern

August 2023

- Developed a detailed Specific Requirements Sheet (SRS), laying the groundwork for a gaming project, playing a key role in the project planning process.
- Thoroughly documented meeting minutes enhancing communication and project alignment between clients and teams.

Supply Chain at Fine Hygienic Paper Co. LLC., Amman, JO

Intern

July 2023

- Gained comprehensive insight into factory operations and manufacturing processes at Fine HH, enriching my understanding of supply chain dynamics.
- Spearheaded the development of a 'Positive Release Quality Report' in the Quality Assurance department, enhancing the product's reliability and standards.
- Implemented process optimizations in the Planning department using MPS and MRP, significantly improving production efficiency and accuracy.

LEADERSHIP/VOLUNTEERING EXPERIENCE

Constructor University, Bremen, DE

Constructor's Music Club Leader

August 2023–Current

- Spearheaded the management of the music club, overseeing financial operations to fund instruments and other essential resources, ensuring the club's continued success and stability.
- Delegated tasks and responsibilities to club members, fostering a collaborative and productive environment.

Constructor University, Bremen, DE

Volunteer Math Tutor

August 2022–Current

- Supported refugee children in learning math, adapting lessons to their individual needs, and overcoming language challenges.
- Aimed to create a welcoming and understanding environment, focusing on building their confidence and contributing positively to their educational journey.
